

Oral presentations

Oral presentation number	Title and presenting authors
01	Margin involvement in invasive breast cancer leads to increased distant recurrence after breast conservation: Systematic review <i>Dr James Bundred, St James's Hospital, Leeds</i>
02	Radiological prediction of axillary lymph node response following neoadjuvant chemotherapy - an aid to patient selection criteria for reducing axillary surgery <i>Sabreen Elbakri, NHS Tayside, Dundee</i>
03	Patient-reported outcomes of prepectoral implant-based breast reconstruction: early results from the Pre-BRA prospective multi-centre cohort study <i>Kate Harvey, University of Bristol, Bristol</i>
04	Development of a trainee oncoplastic breast surgery educational program, by trainees for trainees <i>Hugh Lurcott and Kirakoula Georgas, Royal Surrey County Hospital, Guildford</i>
05	Systematic review of partial breast reconstruction with pedicled perforator artery flaps: clinical, oncological and cosmetic outcomes <i>Ojas Pujji, Morriston Hospital, Swansea</i>
06	Therapeutic mammoplasty is associated with fewer long-term side-effects from breast radiotherapy <i>Arjuna Brodie, University of Leicester NHS Trust, Leicester</i>
07	No occult malignancy identified in 1130 transmale gender-affirming mastectomy specimens <i>Brogan Rudge, North Manchester General Hospital, Manchester</i>
08	Chest wall perforator flaps for whole breast reconstruction - feasibility <i>Peter Barry, Nottingham University Hospital, Nottingham</i>
09	PERforator flaps: doctor needs in training and attitudes. The PERDITA survey <i>Peter Barry, Nottingham University Hospital, Nottingham</i>
10	Cost of delayed versus immediate autologous breast reconstruction <i>Michael Boland, Imperial College Healthcare Trust, London</i>
12	Long-term patient-reported outcomes of immediate breast reconstruction: initial results from the Brighter Study <i>Shelley Potter, Bristol Medical School and North Bristol NHS Trust, Bristol</i>

Oral presentation number	Title and presenting authors
13	<p>Rates of revision and secondary reconstruction procedures 8 years following immediate breast reconstruction: results from the Brighter long-term breast reconstruction outcome study <i>Shelley Potter, Bristol Medical School and North Bristol NHS Trust, Bristol</i></p>
14	<p>Routinely collecting Patient-Reported Outcome Measures (PROMS) data in breast surgery using the BREAST-Q[®] and REDCAP[®] <i>Saed Ramzi, University Hospitals Plymouth NHS Trust, Plymouth</i></p>
15	<p>Efficient management of new patient referrals: further data with increased numbers confirms the safety of advanced nurse practitioner (ANP) led telephone breast pain clinics <i>Claire Robinson and Katy Ellis, Manchester University Hospitals NHS Foundation Trust, Manchester</i></p>
16	<p>Developing and testing a web-based intervention to support pain and symptom self-management in breast cancer surgery <i>Sue Hartup, Leeds Teaching Hospitals NHS Trust, Leeds</i></p>
17	<p>Experiences and views of women undergoing BRCA genetic testing in the UK; a qualitative systematic review <i>Zeinab Hassanein, University of Nottingham, Nottingham</i></p>
18	<p>Preparing to survive: improving outcomes for young women with breast cancer <i>Alison Hunter-Smith, St Helens and Knowsley Teaching Hospitals NHS Trust, Prescot</i></p>
19	<p>Exploring the nipple aspirate fluid microbiome in breast cancer patients <i>Natasha Jiwa, Imperial College London, London</i></p>
20	<p>LYMPHA for primary prevention of breast cancer related lymphedema - prospective observational study <i>Ashwin Rajagopal, Manipal Hospital, Bangalore, India</i></p>
21	<p>Developing an effective triaging algorithm for breast referrals <i>Laura Smith, James Paget University Hospital, Great Yarmouth</i></p>
22	<p>3-dimensional intraoperative analysis of screen detected breast malignancies reduces re-excision rates <i>Giuseppina Mondani, Royal Cornwall Hospitals NHS Trust, Truro</i></p>
23	<p>Are sentinel lymph node biopsies necessary in older breast cancer patients - should we be "choosing wisely"? <i>Alison Luther, University Hospital Southampton, Southampton</i></p>
24	<p>Impact of radiation treatment on immediate direct to implant reconstruction with ADM <i>John Mathew, North West Anglia NHS Foundation Trust, Peterborough</i></p>
25	<p>Does the association between survival and receipt of post-mastectomy radiotherapy vary by age at diagnosis among women with early invasive breast cancer? <i>Katie Miller, Clinical Effectiveness Unit, Royal College of Surgeons of England; London School of Hygiene & Tropical Medicine, London</i></p>
26	<p>Are supero-lateral group of nodes affected in axilla in breast cancer? A validation study <i>Diptendra Kumar Sarkar, The Institute of Post-Graduate Medical Education and Research, Kolkata, India</i></p>

Oral

presentation number **Title and presenting authors**

27 **VTE prophylaxis in breast surgery: clinical audit of over 5000 patients evaluating a local protocol**
Ryo Yoshimura, York and Scarborough Teaching Hospitals, York, United Kingdom

28 **Predictors of axillary pathologic complete response following neoadjuvant chemotherapy for node positive breast cancer**
Alexandra Zabrowski, University Hospitals of North Midlands, Stoke-on-Trent, United Kingdom
