Cambridge Plastic Surgery Cadaveric Dissection Course: Breast & Perineum

18-19 July 2017

Evelyn Cambridge Surgical Training Centre

This is an intensive practical two-day course using fresh-frozen cadavers with emphasis on hands-on supervised dissection.

Topics to be covered:

- Surgical anatomy of the chest/abdomen/perineum
- Breast reconstruction using implants
- Acellular dermal matrix breast reconstruction
- Preparation of recipient vessels in free flap breast reconstruction
- Commonly-used flaps:
 - TRAM/DIEP
 - VRAM
 - Gluteal
 - Latissimus dorsi/TAP
 - Gracilis
- Axillary and groin lymphadenectomy

Learning outcomes:

Understanding of the surgical anatomy of the breast, chest wall, abdomen and perineum, with specific relevance to plastic surgical procedures.

Target audience:

Plastic Surgical Trainees and General Surgery Trainees (ST3+); SAS grades; Consultants

East of England Trainees' Course Fee: £600.00 (non-refundable)

National Course Fee: £900.00 (non-refundable)

The course fee includes:

- Educational materials, supervision, tuition and instruments
- Shared access to a fresh-frozen trunk specimen
- Buffet lunch and refreshments
- Classroom time has been minimised to allow as much time as possible for the hands-on dissection

Application:

We are now able to accept on-line applications via our website:
