# BASO-NCRI Annual Scientific Conference

5<sup>th</sup> – 8<sup>th</sup> Nov 2017 – BT Convention Centre, Liverpool

---

## PRESIDENT ADDRESS

It is my great pleasure to invite you to the second **BASO NCRI Annual Scientific Conference**. As you will see we have a superb programme with two full days showcasing the best of surgical research and achievement. We are also pleased to be able to honour some of the pre-eminent surgeons of our time, including RCS President **Professor Derek Alderson** (who was one of the key forces driving surgical research at the College), **Professor Henry Kuerer** from MD Anderson with his ground breaking breast cancer research and **Professor Freddie Hamdy** from Oxford who has led ground breaking research into prostate cancer and many others.

The programme is themed around surgical research and clinical trials to reflect our successful engagement with the NCRI and our wish to develop and support surgical research. We are supporting research and academic endeavours in a number of ways: our co-ownership of the EJSO (with our sister organisation ESSO) goes from strength to strength with the impact factor reaching 3.5 this year. We have also launched our small research bursary scheme to help support UK surgical research. We hope that the broad exposure to world leading cancer research, from bench to bedside, of our collaborative meetings with NCRI will provide a fertile soil for the growth of new ideas.

We are keen for you to stay beyond the two days of BASO~ACS specific sessions and broaden your exposure to the many and varied sessions on offer by the wider NCRI congress which may cross fertilize your future research ideas.

Finally I hope you will join us for our social programme and attend the BASO Annual Dinner.

**Ms Lynda Wyld**

## **Professor Derek Alderson**

*President of The Royal College of Surgeons of England  
Emeritus Professor of Surgery, University of Birmingham*

President of the Royal College of Surgeons of England and an Emeritus Professor of Surgery at the University of Birmingham. An Editor in Chief of BJS open, Prof Alderson is an expert in oesophago-gastric cancer surgery and has particularly led the College's work on research, data and surgical outcomes.

---

## **Professor Jane Blazeby**

*Professor of Surgery, University of Bristol*

Professor of Surgery at the University of Bristol and an Honorary Consultant Surgeon at University Hospitals Bristol NHS Foundation Trust. Jane leads research and supports trials in surgery which are relevant to patients, surgeons and the NHS; she has a long standing interest in measurement of outcomes from the perspective of the patient as well as the health professional.

---

## **Professor Freddie Hamdy**

*Nuffield Professor of Surgery, University of Oxford*

Prof Hamdy is Nuffield Professor of Surgery, Professor of Urology and Head of the Nuffield Department of Surgical Sciences at the University of Oxford as well as Honorary Consultant Urological Surgeon at the Oxford Radcliffe Hospitals and Fellow of Balliol College. In 2010, he was also appointed Director of the Division of Surgery and Oncology and the Oxford Radcliffe Hospitals Trust. Prior to his move to Oxford in 2008, he spent 10 years as founding Chair of Urology and Director of the Division of Clinical Sciences, then Head of Oncology at the University of Sheffield. He qualified from the University of Alexandria, Egypt in 1981, and trained in Surgery and Urology at Liverpool, Sheffield and Newcastle.

Prof Hamdy's research activities encompass clinical, translational and basic science programmes on the biology of prostate and bladder cancer, with specific interests in the molecular mechanisms of disease progression, cancer induced bone disease, and cancer epigenetics. He is passionate about providing high-level evidence from clinical research for the management of prostate cancer.

---

## **Professor Henry Kuerer**

*Professor of Surgery with Tenure, PH and Fay Etta Robinson Distinguished Professor in Cancer Research, Breast Surgical Oncology, The University of Texas MD Anderson Cancer Center, Houston, TX*

Prof Kuerer plays an integral role in MD Anderson's world-renowned breast care group as a recognized cancer surgeon and researcher who specializes in the multidisciplinary care of patients with breast cancer. Recruited back to MD Anderson to help establish a premier program to train breast cancer surgeons of the future, he is now a tenured Professor of Surgery, the Director of the Breast Surgical Oncology Training Program, and a member of the Clinical Cancer Prevention Program.

He maintains a busy clinical research program and is also a Co-Principal Investigator for the newly expanded national cooperative group NRC Oncology (formerly National Surgical Adjuvant Breast and Bowel Project, Radiation Therapy Oncology Group, and Gynecologic Oncology Group) at MD Anderson, is on the editorial board of several clinical journals, and is an active member on several committees with the American Society of Breast Surgeons and the Society of Surgical Oncology.

# Encouraging Research and Recognising excellence

BASO~ACS takes great pride in honouring surgeons and trainees for outstanding achievement and contribution to cancer surgery, research and education. Over the years, BASO has developed a prestigious portfolio of awards and prizes.

Every year, at the Annual Scientific Conference, BASO awards the Ronald Raven Prize and British Journal of Surgery Prize to the best two abstracts and oral presentations. The Alan Edwards Poster Prize is given to the best poster at the conference.

BASO is delighted to offer a BASO Trainees Prize for the best surgical oncology presentation by a trainee at the Annual Conference of each Surgical Specialty Associations. To support surgical research and educational development each year, we offer the Ronald Raven Travelling Fellowship a bequest from Ronald Raven, one of the founders of the Association.

To celebrate its 40th Anniversary, BASO inaugurated the following awards in 2013 to honour those surgeons who have made outstanding contribution in the advancement of cancer surgery:

- Ronald Raven Lifetime Achievement Award
- Geoff Oates Award
- Uccio Querci Della Rovera Award

## BASO~ACS Membership

BASO is an association for all disciplines of cancer surgery and was established 43 years ago to support progress in cancer care by supporting education, training and research. To this end we work to transcend the narrow confines of specialist associations and single professional groups to encourage truly multidisciplinary and multi-professional progress.

There are five categories of membership:

### **Full members**

Professors, Senior Lecturers, Consultants, Associate Specialists, Staff Grades and GP Clinicians

### **Associate Members**

Specialist Registrars, Clinical Assistants and Senior House Officers

### **Affiliate Members**

Clinical Nurse Specialists, Researcher and Allied Health Professionals

### **Overseas Members**

Professionals working in surgical oncology outside UK. Members from the Republic of Ireland can choose to join as FULL, Associate or Affiliate members or as an overseas member.

### **Senior Retired**

Professionals who have retired from practice

### **Membership benefits include:**

- Annual subscription to the European Journal of Surgical Oncology (EJSO)
- Affiliate membership of our European sister Association ESSO
- Reduced delegate rates at the BASO~ACS Scientific Conference and ESSO events

**Download the BASO~ACS membership form at [www.baso.org.uk](http://www.baso.org.uk)**

# Message from BASO Trainees President

I would like to welcome all the trainees to the **BASO Trainees meeting on Sunday, 5th of November**. The BASO Trainee organisation was established to represent the views of trainee members of the British Association of Surgical Oncology (BASO), The Association of Cancer Surgery (ACS). We also aim to improve the experience, training and professional competence of surgical trainees with an interest in oncology, principally in academic and research matters. This year's BASO Trainee meeting at the NCRI has an excellent session with an oral prize session followed by talks on; research collaboratives, how to excel in the academic training pathway, post CCT fellowships and dynamic clinical trial design. It looks to be a very productive day and I look forward to meeting you all at the session.

**Brian Daniel Kelly**  
President BASO Trainees

There is also a social event on Tuesday evening to which all are welcome.

# BASO~ACS GRANTS AND FELLOWSHIPS

## BASO Raven Travelling Fellowship 2017

BASO Raven Travelling Fellowship was endowed in 1993 by the Ronald Raven Trustees in memory of Ronald Raven, Founder of the Association.

The award is currently for a maximum of £2,000 and may be awarded to one or several individuals as considered appropriate by the BASO~ACS National Committee when considering the merits of their applications.

The scholarship is open to UK-resident trainees or recently appointed consultants, who have gained the fellowship of one of the British or Irish Colleges, and who intend to travel outside the UK. Applicants need not be members of BASO~ACS or BASO Trainees Group (although this is desirable) but applications must relate to the aims and objectives of the Association.

**Applications are now invited for 2017, visit [BASO.org.uk](http://BASO.org.uk) for details.**

**Submission closing on Friday, 22nd September 2017**

## BASO~ACS (NIHR) PROJECT GRANT 2017

**Applications are now invited for the BASO~ the Association for Cancer Surgery project grant, awarded to assist surgeons to undertake research projects related to surgical or surgically linked cancer care.**

BASO ~ ACS is an NIHR non-commercial Partner. Research studies funded through our 'Project Grant' award scheme are eligible for consideration for NIHR Clinical Research Network support and inclusion in the Central Portfolio Management System (CPMS). The NIHR Clinical Research Network supports researchers and the life sciences industry in developing, setting up and delivering high quality research to time and target in the NHS in England.

Applications are sought for discrete projects such as projects seeking funding for the initial development of clinical trials, studies aimed at initial data collection to inform the design of a future trial or systematic reviews. Subject to satisfactory applications, one to three awards up to the total value of £6,000 will be made. Normally the award will be for one academic year.

**Further details available on [www.baso.org.uk](http://www.baso.org.uk) • Submission closing on Monday, 2nd Oct 2017**

## BASO~ACS Programme Sponsors

Support grants are provided towards the BASO programme, which has been designed independently by the BASO~ACS Scientific Meeting Committee.
