

## Family History

| GUIDELINE  | DOCUMENT  | ORGANISATION / COUNTRY                                     | YEAR PUBLISHED |
|--|---|--|----------------|
| <b>Management of high risk women</b>   | <b>Familial breast cancer: Classification, care and managing breast cancer and related risks in people with a family history of breast cancer</b> | National Institute for Health & Care Excellence (NICE), UK | 2017           |
| Comments:<br>None  |   |  |                |
| <b>Management of high risk women</b>   | <b>ABS Summary Statement: Overview of the implications and implementation of NICE guidelines on Familial Breast Cancer</b>                        | Association of Breast Surgery, UK                          | 2015           |
| Comments:<br>This overview summarises the NICE guidance but also discusses what needs to be put in place in secondary care to provide the service. There is a clear discussion of the Manchester Scoring System to calculate risk. It is a useful article to read for a clear understanding of screening, chemoprevention and risk reducing surgery. |   |  |                |
