New look Quarterly Reports

The second NAoMe Quarterly Clinical Indicator Performance Report was published on 9th January 2025. This report has moved from an interactive Excel worksheet to a web-based platform.

Access results for your NHS breast unit including:

- Data completeness for important data items for patients with "de-novo" metastatic disease including: i) staging, ii) WHO performance status, and iii) Clinical Nurse Specialist (CNS) contact.
- Performance indicators for patients with "de-novo" metastatic disease including: Multidisciplinary Team (MDT) discussion, and death within 30 days of chemotherapy.

The new look report is available to [access here](#). We value any feedback that you might have in this.
