

ABS ASPIRE MONTHLY NEWSLETTER

ABOUT ABS ASPIRE

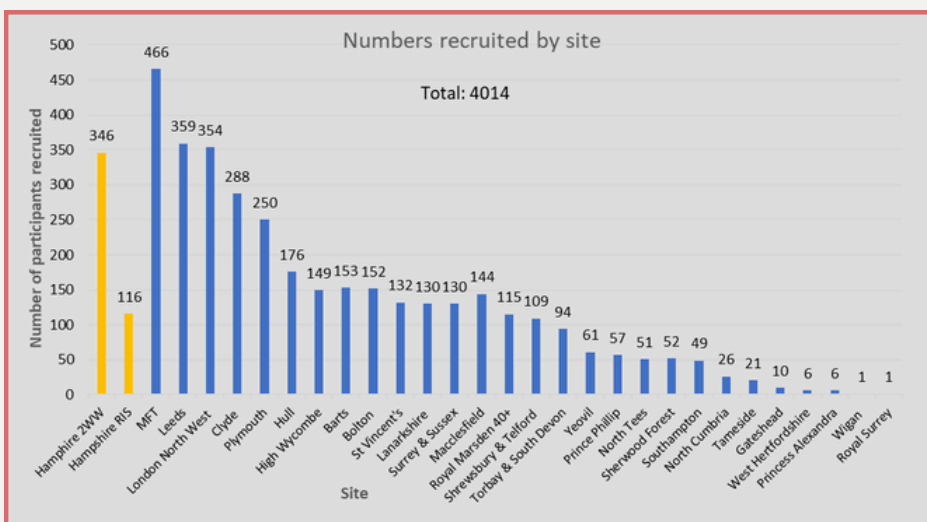

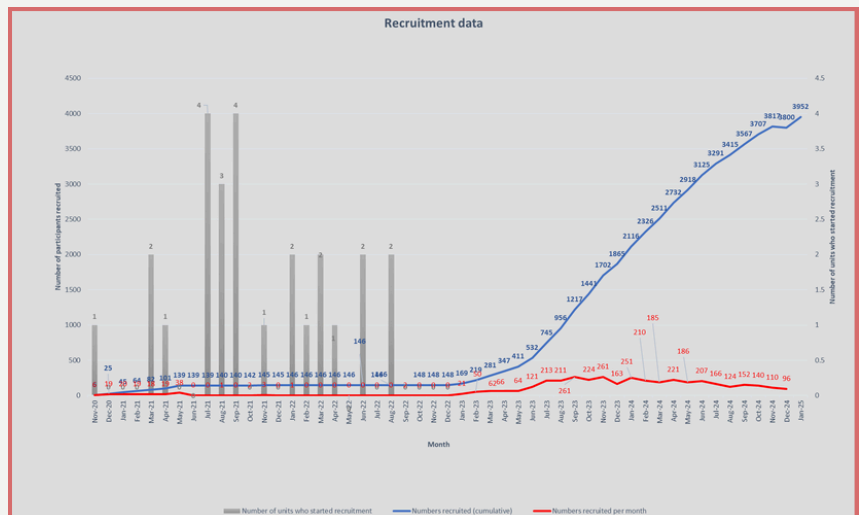

The project aims to evaluate the different breast pain management pathways across sites in the UK and Ireland

Q PATHWAYS X

- **Dedicated breast pain pathway:** face to face appointment with a clinician
- **Telephone:** telephone assessment and mammogram for >40s
- **Self-managed:** Given information and self managed for a period of time
- **GP Managed:** Breast pain patients managed entirely by GPs
- **Imaging Only:** Participants sent letter to have mammogram, not examined
- **Control (2WW/ OSC)**
